Sale of HOCHDORF Swiss Nutrition to AS Equity Partners agreed

HOCHDORF Holding receives provisional debt restructuring moratorium

Hochdorf, 27 August 2024 – **HOCHDORF Holding Ltd has entered into an agreement to sell its operating subsidiary HOCHDORF Swiss Nutrition Ltd (HSN) to AS Equity Partners. HSN will thus be separated from the HOCHDORF Group and will continue to operate under the new ownership. Completion of the transaction is subject, among others, to shareholder approval at an Extraordinary General Meeting on 18 September 2024. HOCHDORF Holding has been granted a provisional debt-restructuring moratorium.**

Chairman of the Board of Directors of the HOCHDORF Group, Jürg Oleas, says: "Given the existential threat facing the entire company due to the legacy debt at holding-level, the Board of Directors has decided to accept the offer of AS Equity Partners to acquire HSN, having carefully considered several sale options. The Board of Directors is convinced that it has found a strong investor and competent owner for HSN in AS Equity Partners to continue to run and develop the company based on the current strategy."

AS Equity Partners is a financial investor based in Switzerland and the UK with a particular investment focus on tech-enabled businesses in special situations. Andreas Schulte, Founder and Managing Partner of AS Equity Partners says: "The technological expertise of HOCHDORF Swiss Nutrition, its relevance in modern nutrition and the encouraging trend in operational recovery are a compelling basis for us to tap into this interesting international potential. We look forward to continuing the company's 129-year tradition with our investment."

Ralph Siegl, CEO and Delegate of the Board of Directors of the HOCHDORF Group says: "During the intensive exploratory talks, AS Equity Partners expressed great interest in HSN's potential and acknowledged the strategic direction of our transformation process in recent years. HSN's business activities, particularly in the area of infant nutrition with the Swissness quality feature, are to be further expanded and its reliable role in the Swiss dairy industry secured – with the goal of further improving the company's profitability in a sustainable manner."

AS Equity Partners' intention is that HSN will continue to be managed by the existing management team led by CEO Ralph Siegl after the transaction has been completed. He will thus resign from the Board of Directors of HOCHDORF Holding upon shareholder approval of the sale at the Extraordinary General Meeting.

Transaction details on the sale of HSN

In the agreement with AS Equity Partners, HSN is valued at a total enterprise value of CHF 83.0 million. The proceeds from the sale to be paid to HOCHDORF Holding as a fixed payment, less the syndicated loan of CHF 67 million taken over by the acquirer, amount to CHF 15.5 million. According to an independent valuation report commissioned by the Board of Directors, the sale price is to be assessed as fair.

The completion of the transaction requires, among others, the approval of a qualified majority of the shareholders of HOCHDORF Holding at an Extraordinary General Meeting to be held on 18 September 2024. The invitation to the EGM with the complete agenda is available at <https://www.hochdorf.com/gv2024/>.

The banks participating in the syndicated loan of HSN have given their consent to the transaction, subject to conditions customary for such type of transaction. In addition, at the request of AS Equity Partners, the Swiss Takeover Board has formally declared in its decision of 29 July 2024 that AS Equity Partners as the buyer has no obligation to make an offer regarding the shares of the SIX-listed HOCHDORF Holding due to the transaction.

Subject to the necessary approvals and other customary conditions, the transaction is expected to be completed before the end of 2024.

Over-indebtedness and provisional debt restructuring moratorium at holding level

The proceeds from the sale to be paid to HOCHDORF Holding will not be sufficient to cover the considerable legacy debt, in particular the hybrid bond issued in 2017 amounting to CHF 125 million and the associated outstanding interest payments. In addition, with the entering into the sale agreement, HOCHDORF Holding had to fully write off the intercompany loans granted to HSN years ago totalling CHF 182 million in the balance sheet as of 30 June 2024, resulting in over-indebtedness in the standalone financial statements of HOCHDORF Holding in accordance with Art. 725b of the Swiss Code of Obligations.

HOCHDORF Holding has applied for a provisional debt restructuring moratorium and the appointment of an administrator, which has been granted by the competent court. The court also subsequently granted the authorization to complete the transaction. At the Extraordinary General Meeting, the renaming of HOCHDORF Holding and the delisting of the company's shares will be proposed to the shareholders.

The creditors of HOCHDORF Holding will be informed in due course in coordination with the administrator as part of the upcoming debt restructuring proceedings and do not need to take any action at this point in time.

HSN's operational business will continue without interruption. HSN will not be affected by the debt restructuring proceedings of HOCHDORF Holding.

Legacy debt left no alternative other than sale

In attempting to secure the operational business and to preserve relating jobs, and having carefully considered various alternatives, a sale of the subsidiary HSN proved to be the only viable option. Despite a promising realignment and a cash-positive business result in 2023 for the first time in a long time, there was no realistic possibility of overcoming the increasing financial burdens at HOCHDORF Group level in the foreseeable future, even if the business remains competitive. The Board of Directors and the Executive Board have ensured that the public were continuously informed of the situation. They also provided shareholders in particular with a transparent account of expected developments at this year's Annual General Meeting. In the view of the Board of Directors and the Executive Board, there is no alternative to the agreed sale of HSN to AS Equity Partners in order to maintain the operational business in its current form.

Jürg Oleas says: "When the current Board of Directors took office in 2020, it found an operating business model that was highly loss-making and unsustainable, and the Group was trapped in a complex financing and capital structure. Everyone at HOCHDORF has worked hard to achieve the operational turnaround under difficult circumstances. These efforts were successful and, after all alternatives for the restructuring of the HOCHDORF Group proved to be unachievable, paved the way for the sale of HSN announced today. This step enables jobs to be protected and HOCHDORF's important partnership with the Swiss dairy industry to be maintained. The proceeds from the sale will, however, only partially cover the considerable legacy debt at holding level. This will have painful consequences for shareholders and bond holders, which the Board of Directors very much regrets. Given the steadily increasing

indebtedness of the holding, coupled with the volatile environment for the operational business, we are nevertheless convinced that the sale of HSN to AS Equity Partners is the best solution in the available time. With this in mind, we call on our shareholders to support the transaction.”

HOCHDORF Group key results for the first half of 2024

In the first half 2024, continuous further progress was made in the turnaround of the operational business. The HOCHDORF Group generated net sales revenue of CHF 145.7 million and in line with full-year guidance, achieved a positive operating EBIT of CHF 0.3 million.

With the agreed sale of HSN, this subsidiary is recognised at liquidation values in the HOCHDORF Group's half-year financial statements. Due to the legacy financial burdens, this led to an impairment of CHF 141.3 million compared to book values. As a result, HOCHDORF Group reported an accounting net loss of CHF 141.5 million.

The half-year report with the complete results for the first half of 2024 are published simultaneously today in a [separate announcement](#).
